## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record, taken alone or in combination, fail to teach or fairly suggest, in conjunction with other limitations in the claims, a mobile communication terminal having a non-contact IC card into which an external IC card reader/writer can write transaction information. The mobile communication terminal, when transaction information is written into the non-contact IC card, transforms the transaction information into a communication message, and transmits the communication message to a predetermined address. (See figure 4)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hale et al (US 4,634,845) discloses a portable personal terminal for use in a system for handling transactions.
